

THE IMPORTANT ROLE OF ORGANIZATIONS IN YEMEN IN BRINGING ATTENTION TO ENVIRONMENTAL PROBLEMS

YOUSRA A.M.A. AL-BAYDANI (*Researcher, Taiz University, Taiz-Yemen*)
Scientific supervisor: Ph.D. Ahmed A.A. AL-Dilami (Scientific Association for Research and Innovations, Yemen.)

Relevance: Yemen, a country facing numerous environmental challenges, requires concerted efforts to address and mitigate the impact of these problems. Organizations operating in Yemen play a crucial role in raising awareness, advocating for change, and implementing initiatives to combat environmental issues.

Goal of the work: to highlights the important role organizations in Yemen play in bringing attention to environmental problems and fostering sustainable solutions.

Result analysis – Organizations in Yemen facilitate capacity building programs and knowledge sharing platforms to empower individuals and communities with the necessary skills and knowledge to address environmental problems. Through training programs, workshops, and knowledge exchange networks, these organizations enhance the understanding of environmental issues, promote sustainable practices, and build a network of individuals and organizations working towards common environmental goals. Effective collaboration and partnerships are essential for addressing complex environmental challenges. Organizations in Yemen foster partnerships with government agencies, academic institutions, NGOs, and international organizations to leverage resources, share expertise, and implement joint initiatives. These collaborations enhance the collective impact and ensure a coordinated approach in tackling environmental problems, leading to more effective and sustainable solutions. Organizations in Yemen recognize the importance of engaging the youth and integrating environmental education into the curriculum. They develop educational materials, conduct awareness campaigns in schools, and organize youth-led initiatives to promote environmental stewardship and inspire the next generation of environmental leaders. By empowering young people with knowledge and skills, these organizations foster a sense of responsibility and ownership towards the environment.

Conclusion. Organizations in Yemen play a crucial role in drawing attention to environmental problems and driving sustainable solutions. Through their efforts in raising awareness, advocating for policy change, implementing conservation initiatives, and empowering communities, these organizations contribute to the protection of the environment and the well-being of Yemeni society. Their work is instrumental in creating a sustainable future, preserving natural resources, and ensuring a healthier environment for current and future generations in Yemen.
